

I like Nikes more than other shoes. **To start off, I like them due to the fact that they are comfortable.** *I walked a mile in them the other day and my feet didn't hurt. But, when I had my Addidas and tried walking that long, my feet started aching.* **Another reason I like them is because they're stylish.** *When I came to school wearing them the first day, people thought they were "fresh." The next day I wore some sandals, and they were "hated."* **In addition to those reasons, my Nikes last longer than my other shoes.** *Since I do not have much money to spend on shoes, it is better for me to buy ones that last a long time. I also do not have to go shopping as often, so that helps me prefer Nikes.* Altogether, Nike's are my favorite shoe.
